PRODUCT DESCRIPTION

Brokron, Inc.

The Silence Features are for your convenience only and will NEVER ignore any alarm. See “If Your Smoke/CO Alarm fails to operate properly.”

Unplug your smoke/CO alarm before replacing or cleaning the batteries. Replacing batteries will reset the alarm clock function back to 0 minutes. The alarm will not be reset when the batteries are replaced.

WARNING!

Never replace the batteries in your smoke/CO alarm while the alarm is sounding. The batteries may be damaged and the alarm will not function properly.

HELPFUL HINTS

- Unplug your smoke/CO alarm before replacing or cleaning the batteries. Replacing batteries will reset the alarm clock function back to 0 minutes. The alarm will not be reset when the batteries are replaced.
- If the smoke/CO alarm fails to operate properly, ensure that the batteries are installed correctly and that they are not low or dead.
- Check for loose or damaged wire connections.
- Test the alarm regularly to ensure proper operation.

Recommended Placement

Recommended locations for Smoke/CO Alarms are

• In areas where temperature is colder than 40˚ F (4.4˚ C) or hotter than 100˚ F (38˚ C).
• In garages, furnace rooms, crawl spaces and unfinished attics. Do NOT locate this Smoke/CO Alarm:
  • over electrical junction boxes.
  • in areas where your Smoke/CO Alarm will be exposed to water or moisture.
  • where carbon monoxide can be produced in large amounts by personnel such as welders, gas fitters, and repairmen.

WARNING!

Do not cover Smoke/CO Alarms with curtains, drapes, cornices, valances or other materials which may interfere with the proper operation of the Smoke/CO Alarms. The Smoke/CO Alarms should be installed on outside walls or ceiling, and not inside attics or garages.

Helpful Hints:

- Do not replace batteries in your smoke/CO alarm while the alarm is sounding. The batteries may be damaged and the alarm will not function properly.
- Replace batteries every six months. Do not replace batteries in your smoke/CO alarm while the alarm is sounding. The batteries may be damaged and the alarm will not function properly.

Important: The Smoke/CO Alarm should be tested weekly throughout the year. The Smoke/CO Alarm should be tested by plugging in the smoke/CO alarm and pressing the test button. The smoke/CO alarm should sound.

WARNING!

The smoke/CO alarm must be tested weekly throughout the year. The smoke/CO alarm should be tested by plugging in the smoke/CO alarm and pressing the test button. The smoke/CO alarm should sound. If the smoke/CO alarm does not sound, it is not working properly and should be replaced.

IMPORTANT:

In the event of a fire, do not use the smoke/CO alarm in the room of the fire. The smoke/CO alarm should be tested weekly throughout the year. The smoke/CO alarm should be tested by plugging in the smoke/CO alarm and pressing the test button. The smoke/CO alarm should sound.

IMPORTANT:

In the event of a fire, do not use the smoke/CO alarm in the room of the fire.
The unit is designed not to alarm when exposed to a constant level of
Approximately 10% COHb exposure at levels of 10% to 95% Relative
humidity. However, when the unit is exposed to a similar
environment, it may experience reduced life expectancy due to the
presence of corrosive gases. Make sure to check the manufacturer’s
guide for further specifications.

The Smoke/CO Alarm is not designed for use on boats or in marine
environments. Outdoor conditions such as rain, humidity, and
temperature can affect the performance of the device. It is
recommended to keep the Smoke/CO Alarm indoors and away from
outdoor conditions when possible.

The Smoke/CO Alarm is not designed for use in the presence of
radiation. The unit is not insulated to provide any protection from
radioactive substances. It is recommended to keep the Smoke/CO
Alarm away from any sources of radiation.

For your records, please record:

- The date of purchase
- The date of installation
- The battery manufacturer and part number
- The serial number
- The model number
- The date of any service or repair

The CO Alarm needs to be replaced every 10 years after installation.

Special compliant considerations:

This Smoke/CO Alarm is designed for use in a residential building
with the following conditions:

- The Smoke/CO Alarm is not designed for use in a commercial
building.
- The Smoke/CO Alarm is not designed for use in a mobile
home.
- The Smoke/CO Alarm is not designed for use in a
nursing home.
- The Smoke/CO Alarm is not designed for use in a
retirement home.
- The Smoke/CO Alarm is not designed for use in a
hospital.
- The Smoke/CO Alarm is not designed for use in a
school.
- The Smoke/CO Alarm is not designed for use in a
motel.
- The Smoke/CO Alarm is not designed for use in a
restaurant.
- The Smoke/CO Alarm is not designed for use in a
business.
- The Smoke/CO Alarm is not designed for use in a
factory.
- The Smoke/CO Alarm is not designed for use in a
convention center.
- The Smoke/CO Alarm is not designed for use in a
theater.
- The Smoke/CO Alarm is not designed for use in a
airport.
- The Smoke/CO Alarm is not designed for use in a
military base.
- The Smoke/CO Alarm is not designed for use in a
recreational facility.
- The Smoke/CO Alarm is not designed for use in a
university.
- The Smoke/CO Alarm is not designed for use in a
college.
- The Smoke/CO Alarm is not designed for use in a
high school.
- The Smoke/CO Alarm is not designed for use in a
middle school.
- The Smoke/CO Alarm is not designed for use in a
elementary school.
- The Smoke/CO Alarm is not designed for use in a
kindergarten.
- The Smoke/CO Alarm is not designed for use in a
playground.
- The Smoke/CO Alarm is not designed for use in a
swimming pool.
- The Smoke/CO Alarm is not designed for use in a
gym.
- The Smoke/CO Alarm is not designed for use in a
library.
- The Smoke/CO Alarm is not designed for use in a
school library.
- The Smoke/CO Alarm is not designed for use in a
research laboratory.
- The Smoke/CO Alarm is not designed for use in a
medical laboratory.
- The Smoke/CO Alarm is not designed for use in a
pharmacy.
- The Smoke/CO Alarm is not designed for use in a
pharmacist.
- The Smoke/CO Alarm is not designed for use in a
pharmacy technician.
