## Setting Up Your DC-1 Decoy Camera

### GENERAL INSTALLATION GUIDELINES

Here are some general safety and installation tips when installing the cameras:

- Do not attempt to open a camera. There are no user-serviceable parts inside.
- When using power tools wear safety goggles. Before drilling holes through a wall or ceiling, check for hidden electricity cables and water pipes.
- When installing a camera on an external wall, insert the operating cable through the wall as close as possible to the camera to reduce the chance of tampering. After drilling any hole through an external wall for cable, make sure the hole is sealed around the cable using a sealant.

*Screws and anchors are supplied. Use an appropriate screw type for the mounting surface.*
